April 14, 2025, 2025

New No Wake Zone Near Clark's Bridge on Lake Lanier

HALL COUNTY, GA. – A new ‘slow no wake zone’ is now in effect near Clark’s Bridge on Lake Sidney Lanier in Hall County. The changes to the old zone are to improve safety for boaters and shoreline visitors. The U.S. Army Corps of Engineers recently installed new signage and buoys and the zone is effective immediately.

Boaters are reminded that all applicable state and federal laws and regulations regarding vessel operation, shoreline safety, and dock usage will continue to be enforced.

Boaters are encouraged to stay alert and follow all posted signage. Stay safe this summer and help protect everyone’s time on the water.

For updates, please visit <https://www.facebook.com/LakeSidneyLanierUSACE/> or <https://www.sam.usace.army.mil/Missions/Civil-Works/Recreation/Lake-Sidney-Lanier/>.
